Course location: Arroyo Trabuco Golf Club (East on Avery Prkwy
26772 Avery Parkway off the 5 Frwy follow
Mission Viejo, CA 92692 Avery Prkwy to the end)

2 CE Units

ARE IMPLANTS CHANGING THE WAY YOU PRACTICE?

Today Dental practitioners and laboratory personal are relying more and more on the use of implants in their treatment plans. New implant designs and restorative components may be changing implant placement guide lines. Protocols for immediately placed single and multiple implants with provisionals are changing the flow of implant treatment. This lecture will review the latest advances in implant dentistry and how they are changing the way we will practice in the future. Suggestions for integrating a conventional philosophy for restoring dental implants involving simplified restorative procedures, which may decrease chair time, will be introduced. Dr. Jansen is highly motivating and inspiring lecturer; it is fun to listen to him. He makes the subject of implant and esthetic dentistry enjoyable. You won't soon forget this presentation.

Some of the topics to be discussed are:

- Are new implant designs changing implant placement guidelines?
- Surgical considerations and treatment planning for implant placement in the anterior maxilla.
- Staging extraction of multiple restoratively hopeless teeth to preserve hard and soft tissue.
- When to consider osteogenic distraction and orthodontic extrusion prior to implant placement.

Mission Dental Implant Center and Periodontal Care

AL MANESH, D.M.D., INC.
PERIODONTIST

- Practice growth through “teeth in a day”, immediately loading single and multiple implants, surgical and restorative indications.
- How to avoid and manage surgical complications in Implantology.
- CAD/CAM in implant and esthetic dentistry.
- Treatment planning the completely edentulous patient.
- Interdisciplinary approach to treatment planning immediately placed implants with provisionals.
- The DIEM approach for the completely edentulous patient, teeth in a day!
- The 1-2-3- appointment approach to restoring dental implants

Dr. Curtis Jansen

Dr. Jansen completed his DDS degree as well as his Prosthodontic education at the University of Southern California School of Dentistry. After practicing in Westwood, California he accepted a full time teaching position at the University of Southern California School of Dentistry. He was later appointed as Director of Implant Dentistry in the Department of Restorative Dentistry. Dr. Jansen has presented lectures on various subjects emphasizing Restorative, Esthetic, and Implant dentistry to groups of specialists, dental associations and study clubs. He has lectured through out the United States as well as Asia, Australia, Europe and South America. Dr. Jansen is an Associate member of the American College of Prosthodontics, and an active member of the Academy of Osseointegration and the European Association for Osseointegration. Currently, Dr. Jansen has a full time practice limited to Prosthetic dentistry in Monterey and Salinas California.

Dr. Al Manesh

Dr. Al Manesh, D.M.D., received his dental degree from Oregon Health Sciences University in Portland in 1993. Upon graduation he moved to Brooklyn, New York, where he completed a General Practice Residency at Lutheran Medical Center.

After 1 short year, Dr. Manesh decided to hone his interest of Periodontics and attended Louisiana State University Medical Center, School of Dentistry, specializing in Periodontics, graduating in 1998. Dr. Manesh has been an associate with South Coast Dental Specialties, since 2001 practicing Periodontics and Implant dentistry until early 2007 when he founded Mission Dental Implant Center in Mission Viejo, Ca.

Dr. Manesh is an active member of American Academy of Implant Dentistry, A Fellow, International Congress of Oral Implantologists, American Academy of Periodontology, Academy of Osseointegration, American Dental Association, and Orange County Dental Society.

Please Contact our office as soon as possible to confirm your attendance. If you have any questions, please do not hesitate to contact us.
